<u>ANNUAL REPORT</u> 2015-2016

Regulating public transportation to make it safe, secure, reliable and efficient

VISION

To provide effective and efficient monitoring and regulatory services that facilitates a people-centered, safe orderly and reliable public passenger transport system.

MISSION

The Transport Authority:

As the Agency of the Government charged with the responsibility for the licensing of all public and commercial vehicles, and the regulating and monitoring of public passenger vehicles, throughout the island of Jamaica is committed to;

- The impartial enforcement of all laws; regulations and agreements relating to public transportation;
- The close and effective monitoring of the transportation system;
- Fostering public awareness of the role, duties and responsibilities of users of the system
- Maintaining an efficient, courteous and knowledgeable workforce to improve the quality of service and output delivered.

VALUES

The Transport Authority's core values are represented by the acronym "CAPIT":

Customer Focus

Accountability

 \mathbf{P} rofessionalism

Integrity

Transparency

CORPORATE PROFILE

The Transport Authority ("the Authority/ TA") is a statutory body, established by the Transport Authority Act of 1987. The TA is charged with the responsibility of regulating and monitoring public passenger transport throughout the island. The TA is also the sole government entity in Jamaica responsible for the licensing of all public passenger vehicles and commercial carriers, a function which the TA undertakes pursuant to the Road Traffic Act 1938. The operations of the TA are undertaken through the following divisions/ departments:

DIVISIONS:

Human Resource and Administration Finance and Planning Operations

DEPARTMENTS:

Internal Audit Southern Region Northern Region Western Region Research and Statistics Licensing & Customer Relations Corporate Communications Property & Facilities Information Technology Legal Services Finance & Accounts

CATEGORIES OF LICENCES:

There are five (5) categories of licenses issued by the Authority under which Public Passenger Vehicles (PPV) operate and two (2) categories of Commercial Carriers licenses. These are listed below:

CATEGORIES OF PUBLIC PASSENGER VEHICLES:

Stage Carriage Route Taxi Express Carriage Hackney Carriage Contract Carriage

CATEGORIES OF COMMERCIAL CARRIERS:

Public Carriers Private Carriers

AUDITORS: C. R. Hylton & Co. was appointed as auditors in keeping with the legal requirement.

CORPORATE GOVERNANCE

The Transport Authority, as a matter of policy, is committed to adopting best practices in corporate governance in all areas of its operation. The Board comprises four (4) appointed members, one of whom is appointed Chairman and five (5) ex-officio members, vis-à-vis:

- The Solicitor General or nominee
- The Permanent Secretary of the Ministry of Transport, Works & Housing or nominee
- The Commissioner of Police or nominee
- The Chief Technical Director (now the Chief Executive Officer of the National Works Agency) or his nominee
- The Managing Director

The Board also includes three (3) co-opted members.

The Board is supported by eight (8) committees namely:

- Legal and Ethics
- Finance, Planning & Information Technology
- Audit
- Operations
- Procurement
- Human Resources
- Licensing
- Accident Investigation & Fleet Administration

REPORT OF THE BOARD OF DIRECTORS

The Transport Authority continued to implement programmes to build and develop a more people-centred public land transport system. Special focus was placed on integrating technology and innovation into improving the service delivery, instituting standards and fit and proper criteria for public transportation and undertaking public education and training to enhance the operations of public transportation services. In pursuit of this goal, the Authority executed a number of key initiatives to reform the public transportation sector. These included:

- Public Passenger Vehicle Standards
- Public Education and Training
- Improvement of Public Facilities and Expansion of Service Delivery Channels
- Technological Advancements
- Research and Data Collection
- Enforcement and Compliance

PUBLIC PASSENGER VEHICLE STANDARDS

FIT AND PROPER STANDARDS/CRITERIA: The Transport Authority established standards and fit and proper criteria for the sector. These relate to:

- PPV Vehicle age requirement
- PPV Maintenance and Appearance (Interior/Exterior)
- Safety Devices
- PPV Vehicle Markings (Destination Markings, Licence Type, Taxi Association)
- Gazetted Fares
- Passenger Load Accommodation

The establishment of these standards are geared towards the general improvement of the public transportation experience for the commuters, operators and all road users.

Colour Coding & Globe

The Authority is well advanced in the implementation of colour coding of Public Passenger Vehicles. The colour coding is affixed based on licence type, using a checkered vinyl strip. The black and white checkered strip is used to identify Route Taxis while the black and yellow checkered strip is used for Hackney Carriages. It is also a requirement

for globes bearing the word 'TAXI' to be affixed on the roof of Public Passenger Vehicles. The deadline for full implementation was March 31, 2016 and over 70% of the licencees have implemented the colour coding system, to date. The colour coding and globes should assist commuters in identifying and selecting legal modes of public transportation, and should also facilitate monitoring and enforcement by regulators.

Colour coded Taxi

PUBLIC EDUCATION & TRAINING

Public Education and Communication

The Transport Authority continued to build public awareness and enhance public education. Accordingly, the Authority prioritized encouraging the safe use of public passenger vehicles and providing information of the license application process in these activities. The Choose Right, Choose Life and Bridging the Gap Communication Campaigns were the major multimedia campaigns implemented during the period.

The Choose Right, Choose Life campaign had the main theme: Don't put yourself in danger-Choose Right, Choose Life. Take a licensed public transportation vehicle!

L-R: Managing Director of the Transport Authority, Donald Foster greets Minister Omar Davies, following the press launch for the Choose Right, Choose Life Campaign. Looking on are Mrs. Faith Thomas, Director, Choose Life International and Senior Superintendent of Police, Calvin Allen.

The campaign was geared at increasing public awareness of the benefits associated with using approved public passenger vehicles and highlights the dangers of using illegal transportation. The campaign was launched in October 2015 and ended on February 5, 2016.

The second campaign dubbed the **Bridging the Gap** campaign was a 6 month multi-media campaign geared at increasing the awareness of Licencees to the requirements for applying for road licences and commercial carriers. The campaign highlighted the

requirements for re-licensing of PPV and commercial carriers, colour coding, PPV Driver and Conductor Training/Badges. The campaign started on February 16, 2016 and should be concluded in July 2016.

PROFESSIONALIZATION OF PPV DRIVER AND CONDUCTORS (CONDUCTOR AND DRIVER TRAINING)

In 2013 the Authority launched a national Public Passenger Vehicle Driver/ Conductor training programme delivered by HEART Trust/NTA under a two year agreement. In 2015, the Authority entered into another agreement with the HEART Trust/NTA for the delivery of an expanded training programme island wide for conductors and drivers. The aim of this programme was to engender a culture of discipline, increase safety and improve customer service on the roads and to professionalize the jobs of PPV operators in the public transportation sector. As at March 31, 2016, a total of 12,425 operators (conductors/drivers) have been trained under this programme.

Consultative meeting with Route Taxi Association Presidents and staff of the Transport Authority.

RURAL SCHOOL BUS SYSTEM

Since 2013, the Authority has been implementing a School Bus System in an effort to foster the provision of more reliable, safer and efficient means of transportation for students. The programme was launched on September 2, 2013, with a pilot project in St. Catherine, which was implemented in conjunction with the St. Catherine School Bus Association.

In 2014, the Transport Authority in collaboration with the Clarendon Parish Council extended the School Bus programme to Clarendon. This included the Foga Road, Glenmuir and Denbigh High Schools in May Pen. Based on the success of this phase, the programme was further extended to schools in Southern Clarendon. The new phase commenced on February 2, 2015 and benefits some 3, 000 students from the Bustamante, Garvey Maceo, Kemps Hill and Vere Technical High Schools.

While the programme has generally been beneficial to many students, there have however been challenges with the implementation of Phase 2 of the programme, as some students have refused to take the designated buses. Additionally, there have also been challenges with retaining bus operators in the programme, due to the unprofitability of operating along the route. An evaluation of Phase 2 of the programme is currently underway and it is anticipated that the redesigned programme will be re-launched for the start of the new school term in September, 2016.

A third phase of the Rural School bus programme was slated for Mandeville, Manchester. However, the implementation of Phase 3 had been suspended until the issues of Phase 2 were resolved, and pending the allocation of dedicated buses, for the programme. In light of the foregoing, the launch of that phase is projected for January, 2017.

IMPROVEMENT OF PUBLIC FACILITIES AND EXPANSION OF SERVICE DELIVERY CHANNELS

Jamintel Building - Down Town, Kingston

Corporate Head Office

In March 2014, the Authority purchased the 60,676 sq. ft. JAMINTEL building in Down Town Kingston for the relocation of its corporate offices. The acquisition of the building will serve to provide improved customer service delivery and to house the combined operations of its offices located at 107 and 119 Maxfield Avenue, Kingston, which have far outgrown their current facilities.

During the fiscal year, preparatory activities continued as the Authority sought to engage a Project Manager for the renovation. The invitation for tender for the post of Project Manager was advertised in December 2015 and closed on January 14, 2016. However, no expressions of interest were received by the Authority. Accordingly, the Board of Directors granted approval for the Authority to recruit and employ a Project Manager on a contractual basis to oversee the renovation of the JAMINTEL Building to completion. Work on the facility was scheduled for commencement in the 2016/2017 fiscal year.

Transport Centres

In an effort to improve the overall public transportation sector, the Authority continues to collaborate with the Ministry of Local Government and Parish Councils to establish standards for the design, operation and maintenance of transportation terminal facilities, island-wide. Accordingly, the Authority enhanced operations of two such facilities.

The Authority completed construction of the Linstead Transportation Centre in January 2016 at a total cost of \$59.4M.

The Linstead Transportation Centre, prior to construction works.

The facility was designed to accommodate over 300 bus and taxi operators and was commissioned on February 3, 2016. It is anticipated that the establishment of the facility should result in a reduction in traffic congestion in the township. The Authority's investment in the construction of the centre will be recovered over a ten year period, through a lease agreement with the St. Catherine Parish Council. The Authority assumed responsibility for the operations of the Down Town Municipal Transportation Centre (Water Lane), which was leased from the Urban Development Corporation (UDC) in April 2015. Since the acquisition, there has been improvement in the usage of the facility, which currently serves as a terminal facility for routes originating in St. Thomas, Portland, St. Mary, St. Andrew and sections of St. Catherine. The current operations of the centre have also contributed to improved order in the Down Town Kingston public transportation system, as 114 operators terminate in the facility on a daily basis. The maintenance of the facility is funded from revenues from ticket sales.

The Linstead Transportation Centre, after the construction works.

Pound Facilities

To better serve Western Jamaica, a pound facility was established in the parish of Westmoreland at a cost of \$10M. Additionally, the Authority completed the construction of a pound facility in Falmouth, Trelawny at a cost of \$4M. These pound facilities commenced operations in August 2015 and February 2016, respectively.

The Transport Authority's plan is to upgrade these facilities to become satellite offices in the near future. The establishment of the new pound facilities will serve to improve the overall efficiency of road operations and customer service delivery to its customers, particularly in these rural communities.

TECHNOLOGICAL ADVANCEMENTS

The Authority introduced two Information Management Systems to modernize and manage the operations of its pounds and road operations nationally.

Pound Operations Management System (POMS)

The Pound Operations Management System (POMS) which provides technological support to improve the operations and management of the Transport Authority pounds island-wide was rolled out in September 2015 in the corporate area. Extensive training was completed to facilitate this process, with island wide roll-out scheduled for the 2016/17 fiscal year.

Road Operations Management System (ROMS)

The Road Operations Management System (ROMS) allows the Operations Division to dispatch Route Inspectors to assigned locations and enables the issuance of documents such as Summonses, while on road operations. In 2015, the system was enhanced for increased efficiency and effectiveness. The enhancements include:

- The optimization of the application used on the tablet computers and phones. This makes the application less data intensive, thus making the processes faster on the mobile devices.
- 2. Greater security of the application; all queries done by an authenticated user are now logged for auditing purposes and the tablet computers can be remotely deactivated by an administrator.

RESEARCH AND DATA COLLECTION

Kingston Metropolitan Transport Region (KMTR) Survey

The survey was conducted at the major transportation hubs and terminal points in the Kingston Metropolitan Transport Region (KMTR) in June 2015, to ascertain the demand for and supply of public transportation on all routes operating in the KMTR. The aim of the survey was to ascertain the adequacy of seats provided by the various modes of transportation and the operational effectiveness of operators on routes within the KMTR. The KMTR Survey Report was completed in February 2016. The report includes a comprehensive analysis on Hackney Carriage operations in the KMTR along with recommendations for the improvement of public transportation system in the region. The findings of the survey will be used to guide the issuance of road licences in the KMTR, the development of operational strategies for enhanced monitoring and enforcement and to improve the overall efficiency and effectiveness of public transportation services within the corporate area.

SERVICE DELIVERY

Improvement in Customer Service

To strengthen public interaction, public relations and customer service at all levels, the Authority has established a Customer Care Centre and implemented its public interaction policy. At the end of March, 2016 over 150 frontline staff members had received public interaction and customer service training.

ENFORCEMENT & COMPLIANCE

National Transportation Sector Service Awards Programme

To encourage voluntary compliance among Public Passenger Vehicle operators, the Authority will be implementing a Rewards and Recognition programme geared at incentivizing PPV operators, based on best practices. Under the programme, Drivers and Conductors who meet and exceed sector service delivery standards will be recognized. The public will be engaged in the process of selecting the operators to be recognized through a public voting component. The programme will culminate in the selection of the Driver of Year and Conductor of the Year awards, in all four regions and nationally.

Increased Enforcement Activities

In its efforts to reduce illegality and general misconduct in the Public Transportation sector, the Authority engaged in a range of proactive operations geared towards monitoring and enforcing the rules of law governing the Public Passenger Vehicle sector. In addition to routine operations, some 1,659 special operations were undertaken island-wide during the fiscal year.

Between April 2015 and March 2016, operational activities resulted in 20,840 prosecutions and 3, 328 seizures for breaches of the laws relating to public transportation. In the drive to improve order in public transportation, the Authority will be intensifying enforcement and compliance activities in the 2016/2017 fiscal year.

Road Licences Issued

As at March 31, 2016, the Transport Authority issued fifty thousand and seventy-two (50,072) road licences. Public Passenger vehicle road licences accounted for thirty-nine 39% of the licences issued (19,416) while the remaining 61% (30,656 licences) were Commercial Carriers. See table below for details.

| LICENSE CATEGORY | LICENSE TYPE | LICENSES ISSUED |
|--|-------------------------------------|--------------------|
| Commercial Carriers | Private Carriers Public Carriers | 22,789 7,867 |
| Total Commercial Carriers | | 30,656 |
| Public Passenger Vehicles | Contract Carriage | 4,591 |
| | Hackney Carriage | 1,471 |
| | Rural Stage Carriage | 835 |
| | Route Taxi | 11,775 |
| | JUTC Stage Carriage | 744 |
| Total Public Passenger Vehicle Total Licences | | 19,416 50,072 |

MEMBERSHIP IN THE INTERNATIONAL CONFERENCE OF POLICE CHAPLAINS IN JAMAICA

On September 18, 2015 the Transport Authority joined the ranks of three other law enforcement entities in Jamaica that have attained full-fledged membership in Region 12 of the International Conference of Police Chaplains (ICPC) with the graduation of thirty-one (31) employees from the ICPC Transport Authority Training programme.

The thirty-one (31) participants were selected from the TA's offices island-wide and participated in twelve (12) basic and three (3) enrichment courses, as part of the training programme. Rev. Maxine Welsh, JP, Chaplain and ICPC Trainer was also appointed as the Director of the Chaplaincy Services of the Transport Authority. Rev. Welsh will oversee the provision of spiritual and personal advice; moral and ethical training; religious instruction; counselling services; mentorship; pastoral as well as psychological care services.

International Conference of Police Chaplains (ICPC) executives and participants of the Transport Authority's Chaplaincy programme, at Pinning Ceremony held in November 2015

CORPORATE SOCIAL RESPONSIBILITY

Christmas Treat at Glenhope Nursery

The Transport Authority, as part of its Social Corporate Responsibility programme, hosted a Christmas treat for the 46 children and 10 care-givers at Glenhope Nursery. The treat dubbed a "Slice of Christmas" was held on December 23, 2015.

The children were feted to entertainment from the staff of the Authority. Glenhope Nursery is one of thirteen (13) Government operated Child Care institutions in Jamaica.

Operations Division Staff with a child at the Glenhope Nursery

Employees of the Transport Authority and children at Glenhope Nursery

Labour Day

The Transport Authority also lent its helping hands to the St. Barnabas School in May, 2015, by renovating the St. Barnabas School playground as part of its Labour Day Activities.

PLANNED PROGRAMMES 2016/2017

The Authority has prioritized the following initiatives for the upcoming year:

- Encourage compliance to improve public order and safety. The Authority will undertake intelligence driven monitoring activities to strengthen compliance and implement a framework for the suspension, revocation and non-renewal of road licences.
- Transform the image of the Authority into a customer focused and respected entity. In this regard, the Authority will strengthen public interaction, public relations and customer service at all levels in the Authority. This will include introduction of mobile services, implementation of the public interaction policy, citizen's charter and improved stakeholder management.
- Encourage voluntary compliance. The Authority will be implementing and sustaining a Rewards and Recognition programme geared at incentivizing PPV operators' based on best practices;
- Modernize road operations. The Authority will modernize road operations by implementing standard operating procedures for road operations and incorporating information communication technologies (ICT's)in enforcement activities. This includes:
 - 1. Greater integration of ICT systems with Tax Administration Jamaica and Insurance Association of Jamaica to verify legitimacy of documents and information sharing.
 - 2. Integration with Ministry of National Security ICT system to improve efficiency in badge processing.
 - 3. Networking with the National Works Agency (NWA) to expand the closed circuit television camera coverage on

main thoroughfares in the Corporate Area.

Transport Authority

- Build research and development capabilities to better inform decision making processes. In order to respond effectively to the growing demand for public transportation, the Authority will be building its research and development capabilities by increasing the number of routine surveys conducted, infusing information communication technology into the licence approval process and implementing a responsive demand and supply model.
- Authority will The be improving through service delivery channels expansion of the information the communication technology platform to include online application queries and applications for Public Passenger Vehicle services.
- The Authority will be upgrading its facilities to enhance customer experience.

The implementation of the foregoing strategies should serve to greatly enhance the overall efficiency and effectiveness of the Authority's operations, thereby re-positioning the entity to deliver regulatory and monitoring services that facilitate a people centred, orderly and reliable public passenger transport system.

FINANCIAL PERFORMANCE

The Transport Authority recorded **Surplus before Tax** of \$12M at the end of the 2015/2016 financial year, which represented a 73% decline when compared to surplus before tax of \$45M at the end of the prior year. A surplus before tax of \$82.4M was projected for the year.

Gross Operating Revenue for the year at \$1.030B was \$58M or 6% above prior year earnings of \$972M; however this was \$88M or 8% below budgeted revenue of \$1.118B. Non-operating Income earned on cash invested was \$34M which is \$4M or 13% below projected earnings of \$30M. Income earned on investment during the previous year was \$48M which was \$14M or 41% above current year. The decrease in interest income when compared with prior year is attributed to the decrease in the amount of cash invested due to capital investment projects undertaken by the Authority during the year under review. Capital expenditure included the construction of the Linstead Transportation Centre and the improvement of pound facilities. Even though gross operating income generated during the year compares favorably to prior year, total operating expenses grew by 8%.

Total Operating Expenses for the year was \$1.053B, this represented an increase of \$78M over the previous year's amount of \$975M. However, current year expenditure was \$50M or 4% below projected expenses of \$1.103B. Staff costs represented 60% of total costs for the year, which compares unfavorably with 58% recorded in previous year. There was an overall 14% increase in salaries and wages, staff allowance, statutory deductions and pension contributions. This is largely due to an increase in salaries, wages and allowances effective April 1, 2015 as agreed upon by the Government of Jamaica and the Collective Bargaining Units.

Administrative expenses increased by 4% from \$407M for the previous year to \$425M. However, administrative expenses for the year under review compares favorably with budgeted amount of \$439M. The areas in which significant increases over prior year were recorded are security expenses, rental expenses, donations and subscription, general insurance, surveys and investigations, and costs associated with the disposal of impounded motor vehicles. During the year under review the Authority launched two major communication campaigns and this resulted in a 75% increase in public relations, education and advertising costs. Also with capital expenditure of \$117M there was a perceptible increase in depreciation and amortization for the year.

Total Assets of the Transport Authority as at March 31, 2016 was \$1.194B versus \$1.158B at the end of the previous year. It was estimated that at the end of the year under review total assets would be \$1.287B, therefore total assets was \$93M below projection. Current Assets decreased by \$33M or 5% when compared with prior year. The movement from \$728M to \$695M is mainly due to a decrease in Cash and Deposits. The amount held by the Authority on short term deposits decreased as a result of a 44% decline in cash generated from operations and interest income received. Total Liabilities stood at \$538M at the end of the 2015/2016 financial year; this compares unfavorably with projection of \$533M, also this represented an increase of \$34M or 7% when compared with previous year amount of \$504M. The increase is attributed to an increase in vacation leave accrued at the end of the period and deferred income.

Projections

The Authority is projecting to generate operating income of \$1.140B and interest income of \$40M for the year 2016-2017. Operating expenses are projected to be \$1.145B. At the end of the 2016/2017 financial year the Authority is therefore expecting to generate a surplus of \$35M.

Independent Auditor's Report To the Board of Directors Transport Authority Kingston

Report on the Financial Statements

We have audited the financial statements of Transport Authority (Authority) which comprise the statement of comprehensive income, the statement of financial position as at 31 March 2016, the statement of changes in accumulated funds and the statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with International Financial Reporting Standards, the Public Body Management and Accountability Act and Section 10(1) of the Transport Authority Act, for such internal control that management determines is necessary to enable the preparation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance that the financial statements are free from material misstatements.

An audit involves performing procedures to obtain audit evidence regarding the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. An audit also includes the evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Authority's affairs as at 31 March 2016 and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards and comply with the provisions of the Public Body Management and Accountability Act and the Transport Authority Act.

Independent Auditor's Report Continued

To the Board of Directors Transport Authority Kingston

Report on Additional Requirements of the Transport Authority Act

We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

In our opinion, proper accounting records have been maintained, so far as appears from our examination of those records and the accompanying financial statements are in agreement therewith, and give the information required by Section 10(1) of the Transport Authority Act in the manner so required.

Regulating public transportation to make it safe, secure, reliable and efficient 27

Notes to the Financial Statements

Year ended 31 March 2016

1. The Authority

The Transport Authority (the Authority) was established under the Transport Authority Act 1987, and domiciled in Jamaica with its registered office at 119 Maxfield Avenue, Kingston 10.

Its main objectives are to regulate and monitor public passenger and commercial transport throughout the island. This comprises the processing of applications for, and the granting of, road licenses, franchises to transport operators and other regulatory activities.

2. Significant Accounting Policies:

The principal accounting policies applied to the preparation of these financial statements are set out below. These policies have been applied to all the years presented, unless otherwise stated.

Basis of preparation

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS), and have been prepared under the historical cost convention. The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Authority's accounting policies. Although these estimates are based on management's best knowledge of current events and actions, actual results could differ from those estimates.

Interpretations and amendments to published standards effective in the current year

Accounting pronouncements effective in the current year which are relevant to the Authority's operations

Certain new standards, amendments and interpretations to existing standards have been published that became effective during the current financial year and are relevant to the Authority's operations. The adoption of these new pronouncements has impacted the Authority as discussed below.

There were no standards and interpretations that were applied in the year that affected the presentation and disclosures in these financial statements. The following additional new and revised Standards and Interpretations have been adopted in these financial statements. Their adoption has not had any impact on the amounts reported in these financial statements but may impact the accounting for future transactions or arrangements.

| Amendments to Standar | rds | Effective for annual periods beginning on or after |
|---|--|---|
| LAS 19 | Defined Benefit Plans: Employee Contributions – Amendments to IAS 19 | July 1, 2014 |
| IAS 16, 24, 38 and IFRS 2, 3, 8 and 13 IAS 40 and IFRS 1, 3 | Amendments arising from 2010 – 2012 Annual Improvements to IFRS Amendments arising from 2011 – 2013 Annual | July 1, 2014 |
| and 13 | Improvements to IFRS | July 1, 2014 |

Notes to the Financial Statements

Year ended 31 March 2016

2. Significant Accounting Policies (Cont'd):

Basis of preparation (Cont'd):

Interpretations and amendments to published standards effective in the current year continued

Standards, interpretations and amendments to published standards which are not yet effective

At the date of authorization of these financial statements, certain new standards, amendments and interpretations to existing standards have been issued which were not effective and which the Authority has not early adopted. These are as follows:

| | | Effective for annual periods | | |
|----------------------------|--|---------------------------------|--|--|
| | | beginning on or after | | |
| New and Revised Standards | | | | |
| IAS 27 | IAS 27 Equity Method in Separate Financial Statements – Amendments to IAS 27 | January 1, 2016 | | |
| IAS 1 | Disclosure Initiative – Amendments to IAS 1 | January 1, 2016 | | |
| IAS 16 and 38 | IAS 16 and IAS 38 Clarification of Acceptable Methods of Depreciation and Amortisation Amendments to IAS 16 and IAS 38 | January 1, 2016 | | |
| IAS 16 and 41 | IAS 16 and IAS 41 Agriculture: Bearer Plants - Amendments to IAS 16 and IAS 41 | January 1, 2016 | | |
| IFRS 9 | Financial Instruments | January 1, 2018 | | |
| IFRS 10 and IAS 28 | IFRS 10 and IAS 28 Sale or Contribution of Assets between an Investor and its Associate or Joint Venture – Amendments to IFRS 10 and IAS 28 | January 1, 2016 | | |
| IFRS 10, 12 and IAS 28 | IFRS 10, IFRS 12 and IAS 28 Investment Entities: Applying the Consolidation Exception - Amendments to IFRS 10, IFRS 12 and IAS 28 | January 1, 2016 | | |
| IFRS 11 | IFRS 11 Accounting for Acquisitions of Interests in Joint Operations – Amendments to IFRS 11 | January 1, 2016 | | |
| IFRS 14 | IFRS 14 Regulatory Deferral Accounts | January 1, 2016 | | |
| IFRS 15 | Revenue from Contracts with Customers | January 1, 2018 | | |
| IFRS 16 | Leases | January 1, 2019 | | |
| IFRS 5, 7 and IAS 19,32 | Amendments arising from 2012 – 2014 Annual Improvements to IFRS | January 1, 2016 | | |

The Authority has assessed the relevance of all such new standards, interpretations and amendments and has determined that the following may be relevant to its operations:

IFRS 9, 'Financial Instruments', (effective for annual periods beginning on or after 1 January 2018). In July 2014, the IASB issued IFRS 9 which is the comprehensive standard to replace IAS 39 'Financial Instruments: Recognition and Measurement', and includes requirements for classification and measurement of financial assets and liabilities, impairment of financial assets and hedge accounting.

Notes to the Financial Statements

Year ended 31 March 2016

2. Significant Accounting Policies (Cont'd):

Basis of preparation (Cont'd):

IFRS 9, 'Financial Instruments (Cont'd):

Financial assets are required to be classified into three measurement categories: those to be measured subsequently at amortised cost, those to be measured subsequently at fair value through other comprehensive income (FVOCI) and those to be measured subsequently at fair value through profit or loss (FVPL).

Classification for debt instruments is driven by the entity's business model for managing the financial assets and whether the contractual cash flows represent solely payments of principal and interest (SPPI). If a debt instrument is held to collect, it may be carried at amortised cost if it also meets the SPPI requirement. Debt instruments that meet the SPPI requirement that are held in a portfolio where an entity both holds to collect assets' cash flows and sells assets may be classified as FVOCI. Financial assets that do not contain cash flows that are SPPI must be measured at FVPL (for example, derivatives). Embedded derivatives are no longer separated from financial assets but will be included in assessing the SPPI condition.

Investments in equity instruments are always measured at fair value. However, management can make an irrevocable election to present changes in fair value in other comprehensive income, provided the instrument is not held for trading. If the equity instrument is held for trading, changes in fair value are presented in profit or loss.

Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward unchanged to IFRS 9. The key change is that an entity will be required to present the effects of changes in the Authority's own credit risk of financial liabilities designated at fair value through profit or loss, in other comprehensive income.

IFRS 9 introduces a new model for the recognition of impairment losses – the expected credit losses (ECL) model. There is a 'three stage' approach which is based on the change in credit quality of financial assets since initial recognition. In practice, the new rules mean that entities will have to record an immediate loss equal to the 12-month ECL on initial recognition of financial assets that are not credit impaired (or lifetime ECL for trade receivables). Where there has been a significant increase in credit risk, impairment is measured using lifetime ECL rather than 12-month ECL. The model includes operational simplifications for lease and trade receivables. The classification and measurement of investments in debt securities is driven by the entity's business model for managing the financial assets and the contractual characteristics and will result in one of the following three classifications: amortised cost, fair value through OCI ('FVOCI') or fair value through profit or loss ('FVPL').

Hedge accounting requirements were amended to align accounting more closely with risk management. The standard provides entities with an accounting policy choice between applying the hedge accounting requirements of IFRS 9 and continuing to apply IAS 39 to all hedges because the standard currently does not address accounting for macro hedging. The amendments in respect of hedge accounting will not apply as the Authority does not apply hedge accounting.

The Authority is still assessing the potential impact of adoption and whether it should consider early adoption but it is not possible at this stage to quantify the potential effect.

Notes to the Financial Statements

Year ended 31 March 2016

Significant Accounting Policies (Cont'd):

Basis of preparation (Cont'd):

IFRS 15, 'Revenue from contracts with customers', (effective for annual periods beginning on or after 1 January 2018). IFRS 15 was issued in May 2014 and establishes a five-step model to account for revenue arising from contracts with customers. Under IFRS 15, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

The new revenue standard will supersede all current revenue recognition requirements under IFRS. Either a full retrospective application or a modified retrospective application is required for annual periods beginning on or after 1 January 2018. Early adoption is permitted. The Company plans to adopt the new standard on the required effective date using the full retrospective method. The Authority is to perform a preliminary assessment of IFRS 15 and is to consider the clarifications issued by the IASB in an exposure draft in July 2015 for further informing its analysis.

IAS 1, 'Disclosure Initiative - Amendments to IAS 1', (effective for annual periods beginning on or after 1 January 2016). The amendments to IAS 1 Presentation of Financial Statements clarify, rather than significantly change, existing IAS 1 requirements. The amendments clarify; the materiality requirements in IAS 1, that specific line items in the statement of profit or loss and OCI and the statement of financial position may be disaggregated, that entities have flexibility as to the order in which they present the notes to financial statements and that the share of OCI of associates and joint ventures accounted for using the equity method must be presented in aggregate as a single line item, and classified between those items that will or will not be subsequently reclassified to profit or loss. Furthermore, the amendments clarify the requirements that apply when additional subtotals are presented in the statement of financial position and the statement of profit or loss and other comprehensive income.

Early application is permitted and entities do not need to disclose that fact because the Board considers these amendments to be clarifications that do not affect an entity's accounting policies or accounting estimates. Management has not yet assessed the impact of this amendment on the financial statements on adoption at its effective date.

IFRS 16, 'Leases', (effective for annual periods beginning on or after 1 January 2019). This new standard requires lessees to account for all leases under a single on-balance sheet model, subject to certain exemptions in a similar way to finance leases under IAS 17. Lessees recognize a liability to pay rentals with a corresponding asset, and recognize interest expense and depreciation separately. The standard provides guidance on the two recognition exemptions for leases – leases of "low value" assets and short-term leases with a term of 12 months or less. Lessor accounting is substantially the same as IAS 17. Early adoption is permitted but not before the Company applies IFRS 15. The directors and management have not yet assessed the impact of the application of this standard on the Authority's financial statements.

The Authority has concluded that all other standards, interpretations and amendments to existing standards, which are published but not yet effective are either relevant to its operations but will have no material impact on adoption; or are not relevant to its operations and will therefore have no impact on adoption; or contain inconsequential clarifications that will have no material impact when they come into effect. This includes amendments resulting from the IASB's ongoing 'Improvements to IFRS' project.

Notes to the Financial Statements

Year ended 31 March 2016

Significant Accounting Policies (Cont'd):

Summary of accounting policies

The principal accounting policies applied in the presentation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Foreign currency translation

(i) Functional and presentational currency

The Authority invests in Jamaican and United States of America denominated securities that provide a high return compared with other products available in Jamaican and United States of America dollars. The performance of the Authority is measured and reported to the Board of Directors in Jamaican dollars. The directors consider the Jamaican dollar as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions. The financial statements are presented in Jamaican dollars, which is the functional and presentation currency.

(ii) Transaction and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of transactions. Foreign exchange gains and losses resulting from the settlement of such transaction and from the translation at the year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in surplus or deficit for the period. At the end of each financial period, monetary assets and liabilities denominated in foreign currency are translated using the closing mid-point rate of exchange. Unrealised foreign exchange differences on unsettled foreign currency monetary assets and liabilities are recognized in surplus or deficit for the period.

(b) Investment securities

Investment securities are measured at fair value by reference to quoted market prices when available. If quoted market prices are not available, then fair values are estimated on the basis of pricing models or other recognised valuation techniques.

(c) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Authority and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised.

Fees

Fees are recognized when payments are received from the clients over the period to which the fees apply.

Notes to the Financial Statements

Year ended 31 March 2016

Significant Accounting Policies (Cont'd):

Summary of accounting policies (Cont'd)

(c) Revenue recognition (Cont'd)

Interest income

Interest income is recognised on a time proportion basis using the effective interest method and includes interest income from debt securities.

Dividend income

Dividend income is recognised when the right to receive payment is established.

(d) Receivables

Receivables are carried at cost which approximates the fair value of those assets.

(e) Expenses

All expenses are recognised in surplus or deficit for the period on the accrual basis. Accrued expenses are recognised initially at fair value and subsequently stated at amortised cost using the effective interest method.

(f) Financial investments

(i) Classification

The Authority classifies its investment in debt and equity securities. These financial assets are classified as available-for-sale investment securities. The Authority's policy is for the managers to evaluate the information about these financial assets on a fair value basis together with other related information.

(ii) Recognition/derecognition

Regular purchases and sales of investments are recognised on the trade date, the date on which the Authority commits to purchase or sell the investment. Investments are derecognised when the rights to receive cash flows from the investments have expired and the Authority has transferred substantially all risks and rewards of ownership.

Notes to the Financial Statements

Year ended 31 March 2016

Significant Accounting Policies (Cont'd):

Summary of accounting policies (Cont'd)

(f) Financial investments

(iii) Measurement

Financial investments are initially recognised at fair value. Transaction costs are expensed in surplus or deficit for the period. Subsequent to initial recognition, all financial investments are measured at fair value based on quoted bid prices or amounts derived from cash flow invested. Unrealised gains and losses are recognised in surplus or deficit for the period.

(iv) Fair value estimation

The fair value of the financial instruments traded in active markets (such as equity securities) is based on quoted market prices at the end of the financial period. The quoted market prices used for financial assets held by the Authority is current bid price.

(g) Inventories

Inventories, mainly comprise license forms and laminating film, are valued at the lower of cost, determined principally on the first-in, first-out basis, and the net realizable value.

(h) Cash and cash equivalents

Cash and cash equivalents include cash in hand, demand deposits, other short-term highly liquid investments with original maturities of three months or less.

Use of estimates and judgements

The preparation of financial statements in accordance with International Financial Reporting Standards requires the directors and management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. These estimates are based on historical experience and management's best knowledge of current events and actions and are reviewed on an ongoing basis. Actual results could differ from those estimates.

(j) Pension Scheme costs

The Authority participates in a defined contribution pension scheme, the assets of which are held separately from those of the Authority. Contributions to the Scheme by the Authority are charged to surplus or deficit when due.

Notes to the Financial Statements

Year ended 31 March 2016

Significant Accounting Policies (Cont'd):

Summary of accounting policies (Cont'd)

k) Property, plant and equipment:

- (i) Items of property, plant and equipment are stated at cost, less accumulated depreciation and Impairment losses. The directors however, revalued the building during the current year to show its true value which was materially understated.
- (ii) Depreciation is calculated on the straight-line basis at annual rates to write down the assets to their estimated residual values over their expected useful lives. The depreciation rates are as follows:

| Computer hardware | 22.5% |
|-------------------------------------|-------|
| Computer software | 20% |
| Buildings | 2.5% |
| Freehold and leasehold improvements | 20% |
| Furniture, fixtures and equipment | 10% |
| Motor vehicles | 20% |
| Capital projects | 2.50% |

Land is not depreciated and is stated at cost. Depreciation rates, estimated residual values and expected useful lives are re-assessed at each financial year end.

3 Cash and Deposits

| Actual tax charge recognised in Statement of | 0 647 | 15 500 |
| Comprehensive Income | 8,647 | 15,590 |

Notes to the Financial Statements

Year ended 31 March 2016

18. Commitments

(i) Lease commitments:

At March 31, the Authority as lessee had lease commitments under a non-cancellable operating leases expiring up to 2031 for which the future minimum lease payments are, in relation to the reporting date, as follows:

| | 2016 | 2015 |
|---|--------|--------|
| | \$*000 | \$'000 |
| Not later than one year | 8,222 | 3,437 |
| Later than one year and not later than five years | 14,310 | 4,506 |
| Later than five years | 28,228 | 29,946 |
| | 50,760 | 37,889 |

(ii) Capital commitments:

As at 31 March 2016, the Authority capital contracts that were still open amounted to \$14.532 million (2015: \$79.183 million), in respect of which deposits amounting to \$19.855 million (2015: \$46.94 million) have been made.

19. Pension scheme

A defined-contribution pension scheme is administered by Guardian Life Limited for all employees of the Authority who have satisfied certain minimum service requirements. The scheme is funded by employer's contribution of 71/2 % and employees' contributions of 5% pensionable salaries, plus an option for employees to contribute an additional 5%. Based on unaudited figures provided by the scheme's administrators, net assets available for benefits as at 31 March 2016 amounted to \$468.544 million (2015: \$462.086 million).

The Authority's contributions for the year amounted to \$17.825 (2015: \$19.915 million).

20. Contingent liabilities

In the normal course of business, the Transport Authority is liable to claims for damages for tortuous actions allegedly committed by its servants and/or agents. Provision is made in cases where, in the opinion of management and its legal counsel, it is highly likely that the Authority will be called upon to pay compensation to the Claimant.

At the end of the reporting period, the Authority had a number of claims for damages pending in the Supreme Court and Resident Magistrate's Courts in Jamaica amounting to approximately \$199 million.

Notes to the Financial Statements

Year ended 31 March 2016

20. Contingent liabilities (Continued)

With respect to the pending claims, the Authority is of the opinion that the matters can either be successfully defended or are not yet at a stage where a reasonable estimate of the likely outcome can be assessed, therefore, no provision has been recognised in the financial statements.

21. Related party balances and transactions

(a) The balance sheet included balances arising in the ordinary course of business with related parties as follows:

| | 2016 \$ '000 | 2015 \$ '000 |
|---|------------------------|------------------------|
| Jamaica Urban Transit Company Limited | 121,345 | 117,798 |
| Metropolitan Transport Holdings Limited | 406 | 406 |

(b) The statement of comprehensive income includes transactions arising in the ordinary course of business with related parties as follows:

| | 2016 \$ '000 | 2015 \$'000 |
|--|------------------------|-----------------|
| Key management personnel compensation: Directors' emoluments – fees | 2,323 | 1,554 |

| | 628,290 | 566,776 |

24. Fair value estimation

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction. Market price is used to determine fair value where an active market exists as it is the best evidence of the fair value of a financial instrument. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. Where no market price is available, the fair values presented have been estimated using present values or other estimation and valuation techniques based on market conditions existing at balance sheet dates.

The values derived from applying these techniques are significantly affected by the underlying assumptions used concerning both the amounts and timing of future cash flows and the discount rates. The following methods and assumptions have been used:

- Investment securities classified as available-for-sale are measured at fair value by reference to quoted market prices when available.
- (2) The fair value of liquid assets and other assets maturing within three months is assumed to approximate their carrying amount. This assumption is applied to liquid assets and the short-term elements of all other financial assets and financial liabilities.
- (3) The fair value of variable rate financial instruments is assumed to approximate their carrying amounts.
- (4) Equity securities for which fair values cannot be measured reliably are recognised at cost less impairment.

Notes to the Financial Statements

Year ended 31 March 2016

24. Fair value estimation (Cont'd)

The estimated fair values of the following financial instruments differ from their carrying values:

| | 2016 | 5 | 2015 | | |
|-------------------------|--------------------|--------|--------|---------------|--|
| | Carrying Amount | | | Fair Value | |
| | \$'000 | \$'000 | \$'000 | \$'000 | |
| Investment securities - | | | | | |
| Held to maturity | 61,883 | 60,937 | 56,760 | 55,625 | |

At the end of the financial year, there were no financial instruments that were measured subsequent to initial recognition at fair value in the statement of financial position. The estimated fair value of the investment security above is assessed as Level 2 of the fair value hierarchy.

- Level 1 includes those instruments which are measured based on quoted priced in active markets for identical assets and liabilities. These mainly comprise of equity shares traded on the Jamaica Stock Exchange and are classified as available-for-sale and financial assets at fair value through profit or loss.
- Level 2 includes those instruments which are measured using inputs other than quoted prices
 that are observable for the instrument, directly or indirectly. The fair value for these
 instruments is determined by using valuation techniques and maximise the use of observable
 market data where it is available and rely as little as possible on entity specific estimates. If
 all significant inputs required to fair value an instrument are observable, the instrument is
 included in level 2.
- If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

There were no transfers between the levels during the year.

25. Financial risk management

The Authority's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk. The Authority's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Authority's financial performance.

The Ministry of Finance is ultimately responsible for the establishment and oversight of the Authority's risk management framework. The Managers provide guidelines for overall risk management and areas, such as foreign exchange risk, interest rate risk and credit risk, and investment of excess liquidity. The Managers manage and monitoring risks, as follows:

25. Financial risk management (Cont'd)

(a) Market risk

The Authority takes on exposure to market risks, which is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risks mainly arise from changes in foreign currency exchange rates, interest rates and market price.

The market risk of the Authority's investment portfolio is reviewed regularly using quantitative and qualitative risk measures and analyses.

(i) Currency risk

Currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Authority is exposed to currency risk due to fluctuation in the exchange rates on balances that are denominated in currencies other than the Jamaican Dollar. Management ensures that the net exposure is kept to an acceptable level by monitoring all currency positions and ensuring adherence to predetermined limits.

The carrying amounts of the Authority's foreign currency denominated monetary assets at the reporting date are as follows:

| | 2016 | | 2015 | |
|------|----------|-----------------------|------|-------------------------------|
| | US\$'000 | J\$'000 Equivalent | US\$ | J\$' 000 Equivalent |
| US\$ | 651 | 78,965 | 706 | 71,371 |

There were no foreign currency related liabilities at the reporting date.

Foreign currency sensitivity

The following table indicates the currency to which the Authority had significant exposure on its monetary assets. The change in currency rate below represents the Finance Director's assessment of the possible change in foreign exchange rates. The sensitivity analysis represents outstanding foreign currency denominated monetary items and adjusts their translation at the year end for a revaluation of 1% and devaluation of 10% in foreign currency rates. The sensitivity analysis includes cash and short term investments and investment securities. The correlation of variables will have a significant effect in determining the ultimate impact on market risk, but to demonstrate the impact due to changes in variable, variables had to be analysed on an individual basis:

25. Financial risk management (Cont'd)

(a) Market risk (Cont'd)

(i) Currency risk (Cont'd)

| | | Change in Currency 201 | Effect on Profit 6 | Change in <u>Currency</u> 201 | Effect on Profit 15 |
|----------------------------|--------------|------------------------------|--------------------------|-------------------------------------|---------------------------|
| United States Dollar | | | \$'000 | | \$'000 |
| Revaluation Devaluation | (1%) (6%) | (2015:1%) (2015: 10%) | (790) 4,738 | | (714) 7,137 |

(ii) Interest rate risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Floating rate instruments exposes the Authority to cash flow interest risk whereas fixed interest rate instruments expose the Authority to fair value interest risk.

The Authority's exposure to interest rate risk is affected by its holding in cash and bank deposits. In respect of liabilities, the Authority does not enter into transactions involving interest costs and is therefore not affected by interest rate risk on liabilities.

The following tables indicate the level of interest rate exposure of the Authority for Jamaican dollar and United States Dollar denominated securities:

| | 2016 \$ '000 | 2015 \$ '000 |
|--|------------------------|------------------------|
| J\$ Denominated securities USD Denominated securities | 398,208 78,965 | 496,093 71,371 |
| Total | 477,173 | 567,464 |

The following table indicates the sensitivity to a reasonable possible change in interest rates, with all other variables held constant, on the income statement.

| Financial Liabilities | | | | | | |
| Accounts payable and accrued charges | | - | | | (62,774) | (62,774) |
| Total financial liabilities | - | - | - | - | (62,774) | (62,774) |
| Total interest re-pricing gap | 579,015 | - | 120,885 | 62,816 | (62,774) | 699,942 |

(iii) Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market price, other than those arising from currency or interest rate risk, whether those changes are caused by factors specific to the instrument or affecting all similar instruments in the market.

The Authority is not exposed to price risk.

Notes to the Financial Statements

Year ended 31 March 2016

25. Financial risk management (Cont'd)

(a) Market risk (Cont'd)

(iv) Credit Risk

Credit risk is the risk that a party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss.

Investments are allowed principally in secure liquid instruments and with counterparties that management believe do not offer any significant credit risk. Based on their assessment, management does not expect any counterparties to fail to meet their obligations. The managers manage credit risk by having an investment policy which includes written authority levels and prior approval by the Ministry of Finance of any investment transaction.

At the end of the financial year, there were significant concentrations of credit risk in one financial institution. There are no off-balance-sheet investments and, therefore, the maximum exposure to credit risk is represented by the total carrying amount of financial assets.

(v) Liquidity Risk

Liquidity risk, also referred to as funding risk, is the risk that the authority will encounter difficulty in raising funds to meet commitments associated with financial instruments. Liquidity risk may result from an inability to sell a financial asset quickly at, or close to, its fair value. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, and the availability of funding through an adequate amount of committed facilities. Due to the nature of the authority, which accumulates and invests funds to pay liabilities which crystallise principally in the short term and in a measured predictable manner, the managers believe that liquidity risk for the Authority is negligible.

| In more than one year: Staff loans Loans receivable Investments | | 2,237 4,894 57,922 |
| | 60,652 | 65,053 |
| Financial liabilities maturing In one year or less or on demand: Accounts payable | 21,900 | 62,774 |

Notes to the Financial Statements

Year ended 31 March 2016

26 Prior year Adjustment

In prior years, adjustments were made to the financial statements in bringing the prepaid fees in line with the supporting underlying sub-ledger records having reviewed and transferred those not deemed to be prepaid. The effect of the adjustment was reviewed during this year and was found to be incorrect. Further, investment securities and some staff loans were incorrectly classified as short-term in previous periods.

| CURRENT ACCETC | As previously reported 2014 \$ '000 | Adjustments \$'000 | Note | As restated 2014 \$ '000 |
